

Visual Arts syllabus Grade 7

I have designed the Visual arts track in 7th grade to give you a greater understanding of the visual arts. You will be using your experience and knowledge gained during foundation year in 6th grade to begin developing a portfolio, which will realize itself in 8th grade. This is an intense program that covers all aspects of the visual arts.

The class will be a full year that will include, and follow, the approximate course of study below (I may switch courses at my discretion.)

- 5 days - Art in your world
- 5 days - Enjoying Art
- 11 days - Exploring Art Media
- 10 days - You the Art Critic
- 12 days - Art History and You
- 5 days - Elements of Art
- 5 days - Principles of Design
- 15 days- Drawing
- 15 days - Printmaking
- 15 days - Painting
- 18 days - Graphic Design
- 17 days - Sculpture
- 16 days - Crafts
- 15 days - Architecture
- 18 days - Photo, Video, Computers

In the event that you are scheduled into the 7th grade wheel your course of study will follow the exact same schedule as 7th grade honours above according to the quarter in which you are scheduled into Visual Arts.

I strongly advise all students to buy a portfolio to keep their artwork in. If you don't have a sketchbook any studies done prior to the final projects should be kept as evidence of sketchbook work.

Grading is based on

- 30% Participation, creativity
- 45% final projects
- 25% studies/research papers.
